Store Bought Non-Toxic Kennel Floor Cleaning Solutions

1. [Mrs. Meyer's Clean Day All Purpose Cleaner](#)

Mrs. Meyer's line of cleaning products are well-known for containing natural yet effective ingredients. Clean Day All Purpose Clean is tough on dirt and grime without toxic side effects. It's designed for non-porous surfaces, so it's suitable for many types of kennel flooring.

Clean Day All Purpose Cleaner does not contain chlorine bleach, formaldehyde, or other dangerous ingredients. The formula includes plant-based surfactants for effective cleaning and essential oils for a natural and mild fragrance.

2. [Better Life All-Purpose Cleaner Wipes](#)

Kennel flooring panels often need a quick wipe down after small accidents. For these instances, Better Life All-Purpose Cleaner Wipes are an excellent pick. This product easily removes grime, stains, and more from virtually any hard surface.

The ingredients used in this product are all plant-based and include coconut, corn and soap bark. The pleasant scent is naturally derived from clary sage extract, lemon extract, and orange extract. Better Life All-Purpose Cleaner Wipes are great to keep on hand for fast and safe kennel cleaning.

3. [Simple Green Crystal Industrial Cleaner/Degreaser](#)

Does your dog's kennel flooring need some serious deep cleaning? You aren't stuck using bleach and other harsh chemicals to get the results you want. Simple Green Crystal Industrial Cleaner/Degreaser is non-toxic yet powerful and cuts through all types of stubborn messes.

At first glance, this product might look misleading because it's most commonly used for industrial cleaning. However, the label states that this best-seller is non-hazardous, non-caustic, non-flammable, non-abrasive, fragrance-free and biodegradable. This makes it perfect for safe kennel floor cleaning.

Non-Toxic Homemade Kennel Floor Cleaning Tips

If you want to save money or prefer homemade products, then you'll be happy to know that there are highly effective DIY options. Check out the tips below to discover common household ingredients that are effective kennel floor cleaners.

1. Use a 50/50 solution of white distilled vinegar and water.

White vinegar contains acetic acid and is [known for killing many types of bacteria](#). A simple 50/50 mixture of vinegar and water is ideal for disinfecting kennel floors. For smaller spaces, combine the mixture in a spray bottle. Use a bucket of vinegar and water for bigger kennels.

2. Create a mixture of non-toxic dish soap and warm water.

The reliable old 'soap and water' method of cleaning is perfect for removing grime from kennel flooring. It's easy to find non-toxic dish soap that's free of sulfates, parabens, and caustic agents.

Mix a few tablespoons of natural dish soap into a bucket of warm water. Scrub down your dog's kennel flooring, rinse thoroughly with plain water, and you're all set.

3. Use baking soda and water for stubborn buildup and odors.

Baking soda is ideal if your kennel flooring is plagued with unpleasant grime buildup and odors. It's a natural abrasive that scrubs away dirt, feces, and other grime.

You can use baking soda and warm water to create a paste. Apply the paste liberally to kennel flooring, and scrub using a rubber broom or sturdy brush. Rinse with warm water to complete the job.

Non-Toxic Kennel Floor Cleaning Is A Breeze

It's clear that you have plenty of non-toxic options for kennel floor cleaning. There's no need to use dangerous chemicals that may irritate or harm your furry friends. Many natural alternatives are effective, easy to use, and safe. Try one of our product picks or DIY ideas to get the best results.
